

# THE VOLUNTARY HEALTH SERVICES

Truly Affordable Quality Care

Rajiv Gandhi Salai, Taramani, Chennai - 600113

DEPARTMENT OF CHILD HEALTH

The Department of Child Health in Abhimanyu Block was started on March 13, 2017. We have now upgraded it with new facilities in NICU & PICU.

## Vision and Mission

-  To provide good quality compassionate service at affordable cost
-  To practice safe clinical medicine with a use of appropriate prescription and necessary lab tests
-  To provide training for doctors and nurses to practice safe child health care

We believe that each child is an individual, with unique needs and concerns. We strive to offer every patient an experience that is above and beyond what one might expect in hospital care.

## A SPECIAL PLACE FOR THE LITTLE MIRACLE

-  While the thought of a baby needing intensive medical care might raise many worries, you can be assured that VHS Hospital's Neonatal Intensive Care Unit (NICU) is a place where a baby will receive the best of care.
-  Our Neonatal Intensive Care unit is 20-bed neonatal care facility which is an urban low-cost neonatal intensive care unit. We provide intensive care for sick newborn babies needing **LEVEL IIb** care for both babies born in the hospital and those referred to us.
-  We are equipped with the latest equipment and trained healthcare professionals, the **LEVEL IIb NICU AT VHS HOSPITAL** hosts in-house neonatologists and neonatal nurses, 24X7, capable of handling the high risk situations among newborns, including premature or low birth weight in a warm, personal and family-centered environment.

## SERVICES OFFERED IN NEONATOLOGY

- ⊞ Multidisciplinary care for high-risk neonates
- ⊞ Invasive Ventilation
- ⊞ Non Invasive Ventilation – CPAP, HFNC
- ⊞ 24-hour, in-house coverage for high-risk deliveries
- ⊞ Subspecialty Consultations
- ⊞ Neonatal Transport Service
- ⊞ Newborn Screening Test – TSH, 17OHP, G6PD done FREE OF COST
- ⊞ Newborn Hearing Assessment - OAE
- ⊞ 24 x 7 Blood Bank
- ⊞ Neuro Development Follow-up

## PAEDIATRIC SERVICES

- ⊞ Paediatric Emergency Services
- ⊞ Paediatric Intensive Care Unit with **TELE PICU**
- ⊞ Paediatric Outpatient Department
- ⊞ Paediatric Inpatient Services – General & Deluxe Wards
- ⊞ Paediatric Subspecialty Clinic

## PAEDIATRIC INTENSIVE CARE UNIT

⊞ The PICU offers a range of complex progressive services for medical, surgical and trauma cases. Our PICU is well equipped 8 bedded Intensive Care Unit with ventilators, multipara monitors, defibrillator, high flow nasal cannula devices, portable Xray, ECG & USG machine, cameras for TELE PICU.

⊞ TELE PICU is an innovative, remote-care strategy designed to improve ICU care processes while leveraging scarce intensivist resources. TELE PICU program complements and supplements existing bedside care by providing remote intensivist monitoring. The purpose of the system is to provide improved safety, enhance outcomes through standardization and all measures are taken to maintain the privacy of patients. With TELE PICU, the senior trained Intensive Care Physician is available round the clock whenever needed.

## SUB SPECIALITY CLINICS

- Paediatric Cardiology
- Paediatric Hemato-oncology
- Paediatric Endocrinology
- Paediatric Neurology
- Paediatric Surgery
- Paediatric Gastroenterology
- Paediatric Nephrology
- Paediatric Metabolic & Genetic Clinic
- Child Developmental Unit
- Occupational Therapy
- Child Psychology

## THE CENTRE FOR EXCELLENCE OF RARE DISORDER (CERD)

- CERD serves as the ultimate place for children with rare genetic and metabolic disorder. The concept proposes to develop an integrated multidisciplinary system that would promote the delivery of health care for children with rare genetic disorder. Enzyme Replacement Therapy and inpatient services are done for the children diagnosed with rare metabolic disorder at subsidized cost.

### Academics

Our faculties serve as clinicians and researchers in addition to teaching. The Department trains medical students and offers paediatric residencies (MRCPCH) training in a variety of paediatric specialties. Regular teaching programmes are conducted for nursing and para medicals.

### Location

- Rajiv Gandhi Salai , Taramani between two important landmarks
- Northern end is blessed by Madhya Kailash Temple
- Southern end is enlightened by Tidel Park (IT heart of Chennai)
- Accessible by all modes of transport
